

## Engineering and Medicine: The Prescription for an Aging Population

On the 10<sup>th</sup> anniversary of Senator John Glenn's historic return to space, The Ohio State University presents "Engineering and Medicine: The Prescription for an Aging Population." Join Senator John Glenn and specialists from the College of Engineering and the College of Medicine for a discussion about the effects of aging on the human body, and what The Ohio State University is doing to further the research interests Senator Glenn began on the Shuttle Discovery in 1998.

This event is presented by the College of Engineering, the Office of Geriatrics and Gerontology, the John Glenn School of Public Affairs, and the Center for Clinical and Translational Science.

- WHAT:** Panel Discussion: "Engineering and Medicine: The Prescription for an Aging Population"
- WHO:** Senator John Glenn  
Dr. Richard Hart, Chair, Department of Biomedical Engineering  
Rebecca Jackson, M.D., Director, Center for Clinical and Translational Science  
Dr. William Marras, Director of OSU's Biodynamics Lab  
Dr. Gregory Washington, Interim Dean, College of Engineering
- DATE:** Wednesday, November 5, 2008
- TIME:** Panel Discussion: 3:30 p.m. – 5:00 p.m.  
Following the panel discussion there will be a public reception in the lobby of the Biomedical Research Tower.
- LOCATION:** Biomedical Research Tower  
Room 115  
460 W. 12<sup>th</sup> Avenue  
Columbus, OH 43210
- RSVP:** **This event is free and open to the public, but reservations are required.**
